

Shreeinsul Sectional Pipe Covers

Shreeinsul Sectional Pipe Covers (SPC) offers a quick solution for insulation needs, combining exceptional dimensional stability with durability and toughness. These SPCs are made from long non-combustible rock fibres bonded with thermosetting resin binders. The SPC's are available plain or with FSK facings. This material conforms to ASTM C547 & IS 9842

Key Features

- Dimensionally stable
 - Corrosion resistance
 - Lightweight
 - Good compressive strength
 - Low Thermal Properties
